A CHANCE TO WIN TEN DOLLARS.

Put Up or Hush Up.

Complaints have been made at this office by certain cotton buyers that the cotton market reports published in the EXAMINER are wholly unreliable—that for a while they have appeared in our columns uncorrected and the same day after, and that they have to look to the Gazette for a correct cotton market report.

The foreman of the EXAMINER office desires to say that he will be ten dollars, or any other amount desired, that the figures in the EXAMINER'S cotton market reports have been regularly and correctly changed every day of publication during this month, according to the telegraphic copy furnished this office by the Associated Press. More than this morning this complaint was made, we took the trouble to compare the figures in the EXAMINER with those of the Gazette, Herald and Houston Post of the same date, and they corresponded exactly. Now, since these papers get the same reports, it is evident from the corroboration above shown that the charge of these cotton buyers that they have to look to the Gazette for a correct cotton report is not true, and such reckless assertions are detrimental to the EXAMINER. Those who make these assertions are respectfully requested to desist or to back their assertions with their money—put up or shut up.
